
HEELEY SURGICAL LTD

Manufacturer of Surgical Instruments

Quality without compromise

Non Sterile Single Use
Dental Product List

We are a company that offer a wide range of the highest quality surgical instruments available in today's market place, in both single use and reusable form, at very competitive prices. We are constantly forward thinking, with an ultimate aim of providing a solution to your needs whilst also saving you money.

We offer a unique service where an instrument maker/engineer is willing to discuss any technical problems that you may have and, where possible, provide you with a more suitable alternative - as we realise it is not always possible to get what you want off the shelf. As a highly skilled manufacturer we are also in the fortunate position to be able to re-engineer your reusable items into single use on most occasions should the need arise.

Our single use instruments imitate their reusable equivalents. All carry the wording single use and the recognised worldwide single use logo. They can be supplied sterile or non-sterile, if supplied sterile they come double peel pouched with full traceability and a tear off ID strip to attach to the patients notes.

We are also able to assemble any size of sterile sets to suit your requirements.

All products manufactured and supplied by Heeley Surgical Ltd comply with the requirements of recognised standards; these include British, European and International quality management systems ISO 13485. All our instruments carry the CE Mark.

Our instruments are made from the highest quality materials and carry a replacement guarantee.

Managing Director, Mr Alan Heeley, has 48 years experience in surgical instrument manufacturing and design. Having been an instrument maker himself he brings an in depth knowledge and expertise to the company.

If Heeley Surgical Ltd can be of any help or service to you, or you would like to discuss any requirements you may have we would welcome the opportunity to provide you with any information or help you may require.

<u>CODE</u>	<u>DESCRIPTION</u>
H786-101SN	Tooth Extracting Forcep - Upper Centrals & Canines - English Pattern
H786-102SN	Tooth Extracting Forcep - Upper Laterals & Bicuspid - English Pattern
H786-103SN	Tooth Extracting Forcep - Upper Incisors & Canines - English Pattern
H786-104SN	Tooth Extracting Forcep - Lower Incisors & Canines - English Pattern
H786-105SN	Tooth Extracting Forcep - Upper Primolars - English Pattern
H786-106SN	Tooth Extracting Forcep - Lower Primolars - English Pattern
H786-107SN	Tooth Extracting Forcep - Lower Primolars - English Pattern
H786-108SN	Tooth Extracting Forcep - Right Upper Molars - English Pattern
H786-109SN	Tooth Extracting Forcep - Left Upper Molars - English Pattern
H786-110SN	Tooth Extracting Forcep - Upper Molars - English Pattern
H786-111SN	Tooth Extracting Forcep - Upper Wisdoms - English Pattern
H786-112SN	Tooth Extracting Forcep - Lower Wisdoms - English Pattern
H786-113SN	Tooth Extracting Forcep - Lower Molars - English Pattern
H786-114SN	Tooth Extracting Forcep - Lower Molars Hawk's Bill - English Pattern
H786-115SN	Tooth Extracting Forcep - Right Lower Molars - English Pattern
H786-116SN	Tooth Extracting Forcep - Left Lower Molars - English Pattern
H786-117SN	Tooth Extracting Forcep - Upper Roots & Incisors - English Pattern
H786-118SN	Tooth Extracting Forcep - Roots of Upper Incisors - English Pattern
H786-119SN	Tooth Extracting Forcep - Upper Roots & Incisors - English Pattern
H786-120SN	Tooth Extracting Forcep - Lower Roots - English Pattern
H786-121SN	Tooth Extracting Forcep - Lower Molars - English Pattern
H786-122SN	Tooth Extracting Forcep - Lower Roots - English Pattern
H786-123SN	Tooth Extracting Forcep - Lower Roots - English Pattern
H786-124SN	Tooth Extracting Forcep - Lower Roots - English Pattern
H786-125SN	Tooth Extracting Forcep - Lower Roots with Long Beak - English Pattern
H786-126SN	Tooth Extracting Forcep - Upper Roots - English Pattern
H786-127SN	Tooth Extracting Forcep - Upper Roots - English Pattern
H786-128SN	Tooth Extracting Forcep - Lower Roots - English Pattern
H786-129SN	Tooth Extracting Forcep - Upper Roots - English Pattern
H786-130SN	Tooth Extracting Forcep - Upper Roots Narrow Beak - English Pattern
H786-131SN	Tooth Extracting Forcep - Upper Roots - English Pattern
H786-132SN	Tooth Extracting Forcep - Upper Roots & Canines with Wider Beak - English Pattern
H786-133SN	Tooth Extracting Forcep - Upper Teeth & Resection - English Pattern
H786-134SN	Tooth Extracting Forcep - Seperating Upper Molars Roots - English Pattern
H786-135SN	Tooth Extracting Forcep - Seperating Lower Molars Roots - English Pattern
H786-136SN	Tooth Extracting Forcep - Upper Wisdoms - English Pattern
H786-137SN	Tooth Extracting Forcep - Upper Wisdoms - English Pattern
H786-138SN	Tooth Extracting Forcep - Lower Roots - English Pattern
H786-139SN	Tooth Extracting Forcep - Lower Molars (Hawk's Bill) - English Pattern
H786-140SN	Tooth Extracting Forcep - Lower Incisors & Roots - English Pattern
H786-141SN	Tooth Extracting Forcep - Lower Incisors & Roots - English Pattern
H786-142SN	Tooth Extracting Forcep - Lower Incisors & Roots - English Pattern
H786-143SN	Tooth Extracting Forcep - Lower Premolars & Canines - English Pattern
H786-144SN	Tooth Extracting Forcep - Upper Roots - English Pattern
H786-145SN	Tooth Extracting Forcep - Upper Roots (Narrow Beak) - English Pattern
H786-146SN	Tooth Extracting Forcep - Lower Wisdoms - English Pattern
H786-147SN	Tooth Extracting Forcep - Lower Wisdoms - English Pattern
H786-148SN	Tooth Extracting Forcep - Lower Molars - English Pattern
H786-149SN	Tooth Extracting Forcep - Lower Molars - English Pattern
H786-150SN	Tooth Extracting Forcep - Lower Molars - English Pattern
H786-151SN	Tooth Extracting Forcep - Cowhorn Beak - English Pattern
H786-152SN	Tooth Extracting Forcep - Right Upper Molars - English Pattern
H786-153SN	Tooth Extracting Forcep - Left Upper Molars - English Pattern
H786-154SN	Tooth Extracting Forcep - Right Upper Molars - English Pattern
H786-155SN	Tooth Extracting Forcep - Left Upper Molars - English Pattern
H786-156SN	Tooth Extracting Forcep - Lower Molars (Broken-Down) - English Pattern
H786-157SN	Tooth Extracting Forcep - Lower Molars (Broken-Down) - English Pattern
H786-158SN	Tooth Extracting Forcep - Upper Wisdoms - English Pattern
H786-159SN	Tooth Extracting Forcep - Upper Centrals & Roots - English Pattern
H786-160SN	Tooth Extracting Forcep - Lower Centrals & Roots - English Pattern
H786-161SN	Tooth Extracting Forcep - Universal Pattern for Lower Teeth Molars & Premolars
H786-162SN	Tooth Extracting Forcep - Upper Canines - English Pattern
H786-163SN	Tooth Extracting Forcep - Lower Canines & Premolars - English Pattern
H786-164SN	Tooth Extracting Forcep - Lower Roots (Parallel Beaks) - English Pattern
H786-165SN	Tooth Extracting Forcep - Upper Roots (Parallel Beaks) - English Pattern

H786-166SN Tooth Extracting Forcep - Universal Forceps for Upper Wisdoms, Premolars & Roots
 H786-167SN Tooth Extracting Forcep - Upper Molars - English Pattern
 H786-168SN Tooth Extracting Forcep - Lower Incisors, Premolars & Roots - English Pattern
 H786-169SN Tooth Extracting Forcep - Lower Molars - English Pattern
 H786-170SN Tooth Extracting Forcep - Children's - Upper Molars
 H786-171SN Tooth Extracting Forcep - Children's - Upper Teeth
 H786-172SN Tooth Extracting Forcep - Children's - Lower Molars (Hawk's Bill)
 H786-173SN Tooth Extracting Forcep - Children's - Lower Centrals & Roots
 H786-174SN Tooth Extracting Forcep - Children's - Upper Centrals
 H786-175SN Tooth Extracting Forcep - Children's - Upper Centrals
 H786-176SN Tooth Extracting Forcep - Children's - Upper Incisors & Canines
 H786-177SN Tooth Extracting Forcep - Children's - Upper Molars
 H786-178SN Tooth Extracting Forcep - Children's - Lower Teeth
 H786-179SN Tooth Extracting Forcep - Children's - Upper & Roots
 H786-180SN Tooth Extracting Forcep - Children's - Upper Molars
 H786-181SN Wisdom Teeth Extracting Forcep - Universal Pattern for Upper Teeth
 H786-182SN Wisdom Teeth Extracting Forcep - Universal Pattern for Lower Teeth
 H786-183SN Wisdom Teeth Extracting Forcep - Left Lower Wisdoms & Molars
 H786-184SN Wisdom Teeth Extracting Forcep - Right Lower Wisdoms & Molars
 H786-185SN Tooth Extracting Forcep - Children's with Spring - Upper Molars
 H786-186SN Tooth Extracting Forcep - Children's with Spring - Lower Incisors
 H786-187SN Tooth Extracting Forcep - Children's with Spring - Lower Molars
 H786-188SN Tooth Extracting Forcep - Children's with Spring - Lower Roots
 H786-189SN Tooth Extracting Forcep - Children's with Spring - Upper Incisors & Canines
 H786-190SN Tooth Extracting Forcep - Children's with Spring - Upper Premolars
 H786-191SN Tooth Extracting Forcep - Children's with Spring - Upper Roots
 H786-192SN Tooth Extracting Forcep - Upper Centrals, Laterals & Cuspids - American Pattern
 H786-193SN Tooth Extracting Forcep - Lower Third Molars - American Pattern
 H786-194SN Tooth Extracting Forcep - Splitting Forcep - American Pattern
 H786-195SN Tooth Extracting Forcep - Upper Molars (Hook Handle) - American Pattern
 H786-196SN Tooth Extracting Forcep - Upper Molars (Straight Handle) - American Pattern
 H786-197SN Tooth Extracting Forcep - Lower Molars - American Pattern
 H786-198SN Tooth Extracting Forcep - Lower Molars Children - American Pattern
 H786-199SN Tooth Extracting Forcep - Lower Molars (Cow-Horn Beak) - American Pattern
 H786-200SN Tooth Extracting Forcep - Lower Molars - American Pattern
 H786-201SN Tooth Extracting Forcep - Upper Molars Left Side - American Pattern
 H786-202SN Tooth Extracting Forcep - Upper Molars Right Side - American Pattern
 H786-203SN Tooth Extracting Forcep - Lower Molars (Cow-Horn Beak) - American Pattern
 H786-204SN Tooth Extracting Forcep - Upper Molars & Pre Molars (Strong Beak) - American Pattern
 H786-205SN Tooth Extracting Forcep - Upper Molars Left Side - American Pattern
 H786-206SN Tooth Extracting Forcep - Upper Molars Right Side - American Pattern
 H786-207SN Tooth Extracting Forcep - Universal Forcep for Upper Teeth & Roots - American Pattern
 H786-208SN Tooth Extracting Forcep - Upper Incisors & Roots - American Pattern
 H786-209SN Tooth Extracting Forcep - Fragments & Small Roots (Upper & Lower) - American Pattern
 H786-210SN Tooth Extracting Forcep - Right Upper Molars - American Pattern
 H786-211SN Tooth Extracting Forcep - Left Upper Molars - American Pattern
 H786-212SN Tooth Extracting Forcep - Upper Premolars, Molars and Incisors - American Pattern
 H786-213SN Tooth Extracting Forcep - Universal Forcep for Premolars - American Pattern
 H786-214SN Tooth Extracting Forcep - Upper Premolars, Incisors & Roots - American Pattern
 H786-215SN Tooth Extracting Forcep - Upper Premolars, Incisors & Roots - American Pattern
 H786-216SN Tooth Extracting Forcep - Upper Premolars, Incisors & Roots for Children - American Pattern
 H786-217SN Tooth Extracting Forcep - Lower Premolars, Incisors & Roots - American Pattern
 H786-218SN Tooth Extracting Forcep - Lower Premolars, Incisors & Roots - American Pattern
 H786-219SN Tooth Extracting Forcep - Lower Premolars, Incisors & Roots for Children- American Pattern
 H786-220SN Tooth Extracting Forcep - Upper Wisdoms (Hook Handle) - American Pattern
 H786-221SN Tooth Extracting Forcep - Upper Wisdoms (Straight Handle) - American Pattern
 H786-222SN Tooth Extracting Forcep - Lower Wisdoms - American Pattern
 H786-223SN Tooth Extracting Forcep - Upper Roots, Premolars & Incisors - American Pattern
 H786-224SN Tooth Extracting Forcep - Lower Roots - American Pattern
 H786-225SN Tooth Extracting Forcep - Upper Roots - American Pattern
 H786-226SN Extraction Tweezer - Albrecht 16cm - Round End
 H786-227SN Extraction Tweezer - Albrecht 16cm - Pointed End
 H786-228SN Root Fragments Forcep
 H786-229SN Root Fragments Forcep
 H786-230SN Bone Ronguer - Blumenthal 15cm
 H786-231SN Bone Ronguer - Blumenthal 45° 14.5cm

H786-232SN Bone Ronguer - Blumenthal 90° 14cm
H786-233SN Bone Ronguer - Mead 1A 16.5cm
H786-234SN Bone Ronguer - Beyer (Multiple Action) 18cm
H786-235SN Bone Ronguer - Ruskin-Mini (Multiple Action) 18cm

SAVE THE PLANET AND SAVE MONEY WITH OUR METALS RECYCLING SERVICE.

Single Use, metal surgical instruments have revolutionised day-to-day healthcare; combating infection rates and reducing costs.

However, after use most are simply discarded and treated as clinical waste with no thought to their value.

SRCL's **Metals Recycling Service** can help cut the cost of clinical waste disposal and help you to be green too.

How does it work?

- Place your single use, metal surgical items in one of our special bins
- Bins are collected on usual collection dates, minimising disruption
- Training and posters provided
- Items are process in one of our sterilisation plants*
- Rebates are available

* The sterilisation process, fully authorised by the Environment Agency, ensures that the sterilised metals can be reprocessed and converted into valueable raw materials; ready for turning into alternative items.

Instant Savings!

We estimate that metal instruments make up almost 5% of an acute hospital's clinical waste.

Treatment centres, GP's, dentists and clinics also generate significant amounts of this waste type.

Many customers ask for this material to be incinerated with tonnes of healthcare instruments sent to landfill after this process.

Sort, Segregate, Save!

By seperating these heavy and bulky items from the incineration waste stream, you can save money instantly.

Incineration weights reduce - lowering treatment costs* and you benefit from paying a lower rate for steam sterilisation of metal items.

Plus, all the metal waste recycled is diverted away from landfill, helping you meet your environmental targets too.

* **For pay-by-weight customers**

WHAT CAN BE PUT IN THE BIN?

Most kinds of metal single use instrument in accordance with local Infection Control policies and procedures

WHAT CAN'T BE PUT IN THE BIN?

**Needles and syringes
Soft clinical waste
Instruments with plastic parts
Food and drink cans or bottles
General waste**

The benefits of using “Heeley Surgical Ltd” Sterile Single Use Instruments

Information available to healthcare professionals has, in the past, offered rather mixed messages in relation to the efficiency of sterile single use surgical instruments.

Whilst presenting a very obvious solution to the time and cost involved in decontamination and sterilisation, there has also been concern in regard to their safety and cost effectiveness of sterile single use surgical instruments. As time has passed, and sterile single use instruments have reduced in price and found a more mainstream use in a full variety of surgical procedures, the benefits can now be seen to far outweigh any possible disadvantage.

Decontamination & Sterilisation

With “**Heeley Surgical Ltd**” Sterile Single Use surgical instruments there is an absolute guarantee that each examination will be performed with a completely clean and sterile instrument, since the “**Heeley Surgical Ltd**” Sterile Single Use instruments are disposed of after each procedure.

This also eliminates the need for a lengthy and costly decontamination process as seen with reusable instruments. In the case of a smaller surgery or clinic, use of “**Heeley Surgical Ltd**” Sterile Single Use surgical instruments therefore removes all of the costs and headaches associated with operating an autoclave, including adherence to compliance regulations and expenditures such as the dead time spent running decontamination cycles. The HTM 2030 guidelines for National Decontamination mean that small practices and surgeries now have to comply with the same standards as set for Sterile Service facilities in NHS Acute Trusts, and achieving such compliance is a very significant cost in terms of both finance and manpower.

Risk Management

Managing the risk of infection and cross-infection will be high on the agenda of every healthcare professional.

The danger posed by ‘prion diseases’ such as ‘Variant Creutzfeldt-Jakob Disease’ (vCJD), and the like, is a major consideration when considering a move to Sterile Single Use surgical instruments. It is reported that the prion found in neurological tissue that infects a person with vCJD, is able to survive for up to 10 decontamination cycles, suggesting that many re-usable surgical instruments are actually being utilised in a contaminated state. Selecting “**Heeley Surgical Ltd**” Sterile Single Use surgical instruments therefore reduces the risk of iatrogenic infection and provides improved peace of mind for both surgeons and healthcare managers.

All “**Heeley Surgical Ltd**” Sterile Single Use surgical instruments are marked with the internationally recognised logo for “Single Use” and the words Single Use, also the CE mark, in accordance with British, European and International quality management systems ISO 13485.

Anything that has this mark on it is a single use item intended for disposal after one patient use.

Instrument Traceability

Every item of the “**Heeley Surgical Ltd**” Sterile Single Use surgical instrument range is individually traceable all the way back to its production date and batch, with a tear off ID strip that can be placed on patients notes. It is recommended that the ID numbers for tracerability are recorded on the patients notes. This can be useful for investigation of complications occurring after the surgery is completed.

Logistics And Supplies

Expansion of the role of GP surgeries and the development of Poly-Clinics will see an increasing number of Minor Surgery procedures being carried out in Primary Care settings.

It is essential that such centres have sufficient quantities of ready to use sterile surgical equipment, but retaining stocks of expensive reusable surgical instruments is far from cost effective.

In addition, time constraints of sending reusable surgical instruments out to regional sterilisation centres will lead to delays in procedures and last minute cancellation of lists.

Purchasing “**Heeley Surgical Ltd**” Sterile Single Use surgical instruments allows the clinic to manage their own supplies in line with their demand at a low cost.

Cost Allocation

With current financial constraints and an increasingly cost aware health service, it is important that the true cost of each procedure can be accurately assessed.

When opting for “**Heeley Surgical Ltd**” Sterile Single Use surgical instruments and Procedure Packs, these costs are simple and easy to calculate.

However, attributing cost when using reusable surgical instruments is seldom as accurate, as the true cost of sterilisation and instrument tracking is difficult to record, with many costs hidden in utility bills and staffing costs.

Environmental Impact

Sterile Single Use surgical instruments fall under the legal definition of clinical waste, and must be disposed of in accordance with national and European Clinical Waste regulations, which currently means that they go for incineration or landfill, raising concerns as to their environmental impact.

However it is very important to recognise that “**Heeley Surgical Ltd**” can offer an alternative to Incineration and landfill (contact us for more information).

A reusable surgical instrument has to undergo the thorough decontamination and sterilisation regime, which includes the use of large amounts of water, detergent, steam & electricity, to prepare it for re-use. In addition, there may be transport considerations if the facilities are not on site.

The environmental impact of the use of these utilities and detergents must be assessed when comparing the ecological effects of Sterile Single Use to reusable instruments.

Cost

The relative cost of using “**Heeley Surgical Ltd**” Sterile Single Use surgical instruments compares very favourably with the alternative of re-sterilisation of reusable instruments, when one considers all the overheads associated with the latter option.

Staff time, equipment maintenance, utility consumption and replacement instruments are just some of the costs associated with in-house decontamination and sterilisation, along with administration costs of instrument tracking and management.

Enforcement of the National Decontamination Strategy will only increase these expenses, as many autoclaves will need to be replaced with the latest compliant models and many buildings refurbished to allow for segregated ‘clean’ and ‘dirty’ rooms.

Conclusion

Taken on balance then, it is evident that use of “**Heeley Surgical Ltd**” Sterile Single Use surgical Instruments in place of reusable instruments will generate:

- Improved cost efficiency
- Improved clinical management
- Improved managerial peace of mind
- Improved Patient Care
- Improved Waste Reduction
- Improved Infection Control
- Reduction in CO² emissions
- Reduction in your carbon footprint
